The answers to the math problems are indexed into GRAB DISC

1. 57 - DS
2. 82 - CR
3. 78 - SC
4. 13 - GA
5. 87 - CS
6. 42 - BR
7. 74 - SB
8. 76 - SI

The nonogram solves to this:

This is a periodic table picture with 8 colored sets of six squares. Each of these can be folded into a cube. Arranging the cubes in order by the elements above, and then reading across the front gives NIMOYINFRINGE.
