SEATTLE POLICE DEPARTMENT
CRIME LOCATION: KING STREET STATION

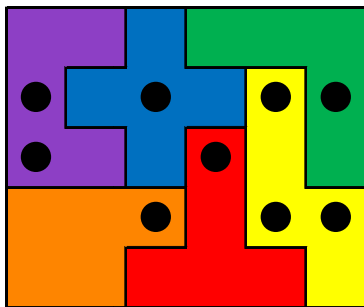

Answer: BOX

The puzzle title and flavor text are hints which should guide you to creating 5x6 rectangles out of the given pieces. When you cut out all the pieces, separate them by colors, and pack each set of them into a 5x6 rectangle, you should see Braille letters in each box. (There is only one possible configuration of each color to make a 5x6 rectangle.) Order the boxes by color, and read the message given:

REASSEMBLE INSIDES

Each box has one and only one piece completely enclosed in the interior; remove those, and re-pack them into another 5x6 box to get the final answer:
